The Mill at Avoca Village, Co Wicklow, Ireland

TOUR, STORE AND CAFÉ

Enjoy a great day out at Ireland's oldest Mill. Established way back in 1723 for local farmers to spin and weave their yarn into tweeds and blankets, Avoca has grown into an Irish family-run business that spans one of the world's oldest surviving manufacturing companies and Ireland's most exciting stores, foodhalls and cafés.

Here, the pretty, old stone buildings of the Mill with the river that once powered it running alongside, still house our weaving. Take a free tour from our visitor centre. Experience first hand the magical transformation of the age-old craft of weaving and chat to our weavers above the clickety-clacking.

Afterwards explore a treasure trove of fashion, homewares, gifts, food and much more in a fabulous store (with tax-free shopping and shipping available) and we've a gorgeous café too, famous for its delicious lunches and home baking.

Find it all at Avoca Mill.
